“Like Our Lady,
we live wisely, think
deeply and love
generously,
in Christ”

This Week's Gospel

This week is the 5th Sunday of Lent

John 7: 28

Then, as Jesus taught in the Temple, he
cried out:

‘Yes, you know me
and you know where I came from.

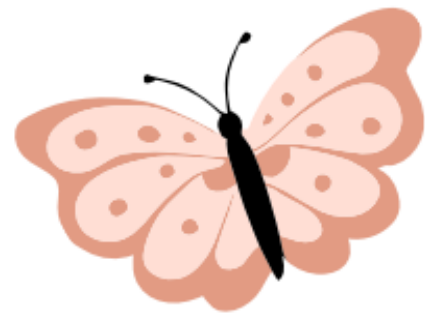

Yet I have not come of myself:
no, there is one who sent me
and I really come from him,
and you do not know him,
but I know him because I have come from
him
and it was he who sent me.’

Attendance

Y3 and Y6 were joint attendance winners this week with 95% attendance all week - well done!

@OLGHLiverpool #OLGHy4 #olghcomputing today year 4 have been creating storyboards for their movies.

@OLGHEYFS

What we've been Learning...

Reception are so excited to have live caterpillars in our classroom. They are watching them grow bigger each day. They have been learning about the life cycle of a butterfly. See if your child can tell you about the four stages. The children have been taking part in lots of activities in continuous provision to develop their fine motor skills, like cutting and sticking pictures to show the life cycle of an animal.

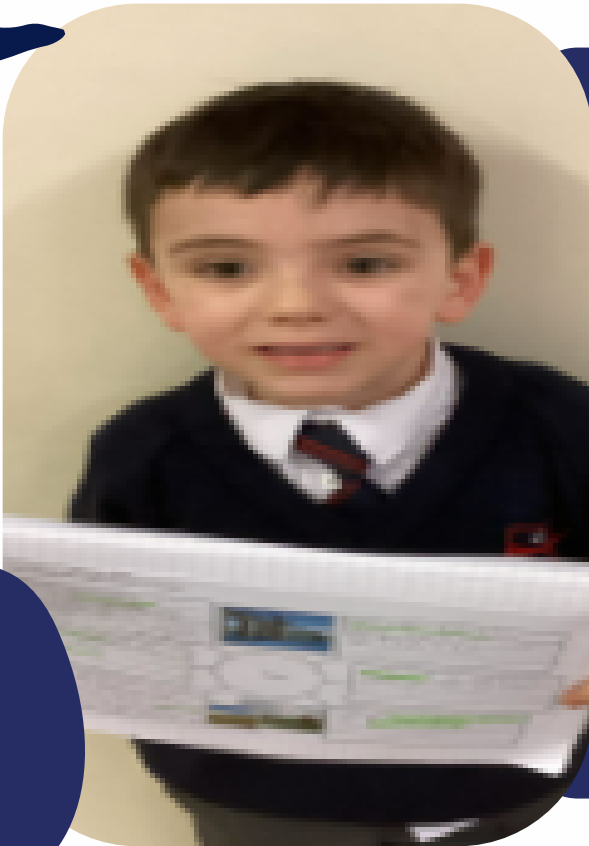

In maths, they have been using their knowledge of numbers to 10 and their number bond facts to subtract numbers from 10 this week. The children have taken part in practical activities, singing songs and using different apparatus to show how to subtract.

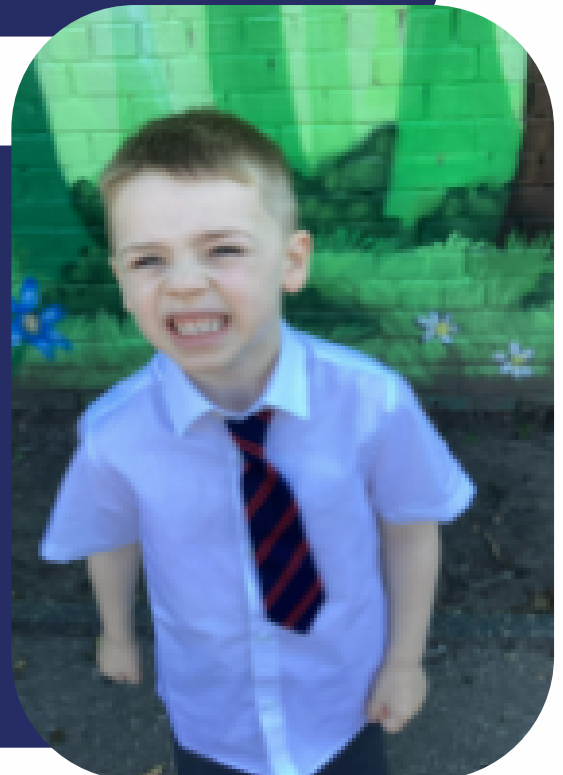

#OLGHY1

What we've been learning...

This week, Year 1 has worked so hard completing their spring quizzes. It was great to have a chance to demonstrate everything we have been learning and all the progress we have made. In RE, we have been learning about how Jesus taught in the temple and the important messages that Jesus shared with people.

In geography, we learned about Wales. We thought about some key landmarks in Wales such as Snowdon and St. David's Cathedral. We also learned about traditional food dishes for Wales such as cawl and Welsh cakes. In science, we have been sorting animals into different groups depending on their features.

#OLGHY2

What we've been learning...

We had a fantastic time at Imagine That on Wednesday and learnt all about new things! We took part in some science investigations with dry ice, made slime and even created snow! Then in the afternoon, we were able to paint magnets and play in the small world area, which included dressing up!

In DT we used our planning from last week to begin making our model ferris wheels in groups, which include a wheel and axle that will make the wheel spin when it is complete. In RE, we have been learning about Ash Wednesday and Lent and discussed how the ashes of palm leaves are used.

#OLGHY3

What we've been Learning...

In English, we have been thinking about how we can use rhetorical questioning to engage the reader in our non-fiction text. It has been great to see the children respond so well to the start of our topic of fractions, in such a positive manner.

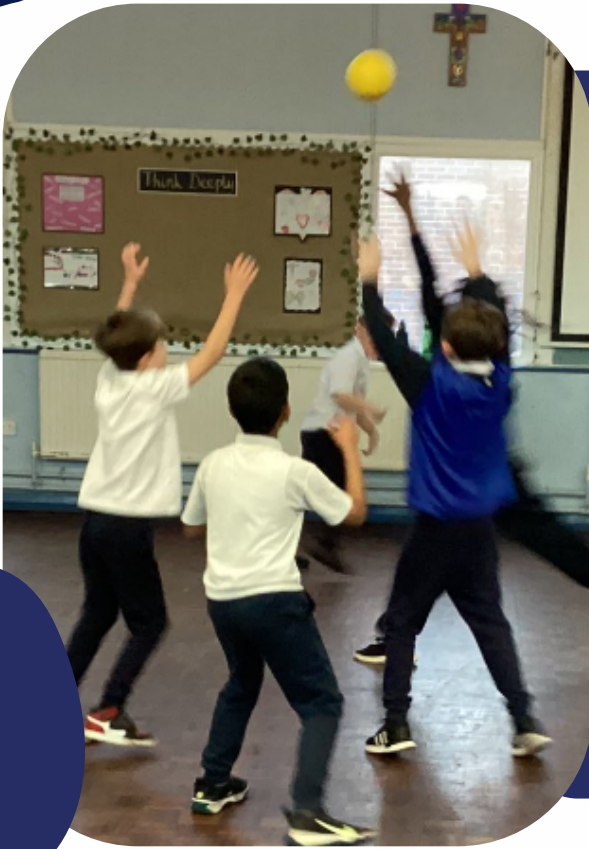

We have been developing our netball skills in PE, involving strategically moving whilst in game play. In Geography, we have been studying the different kinds of agriculture and held some interesting discussions, using key vocabulary.

#OLGHY4

What we've been Learning...

This week Year 4 have completed tests. All of the class have worked hard and are really trying their best, which is great to see. In maths this week, as well as completing 3 tests, we have continuing to work on our basic skills. In English, we have started our new narrative 'Float' and are creating sentences for our independent writing.'

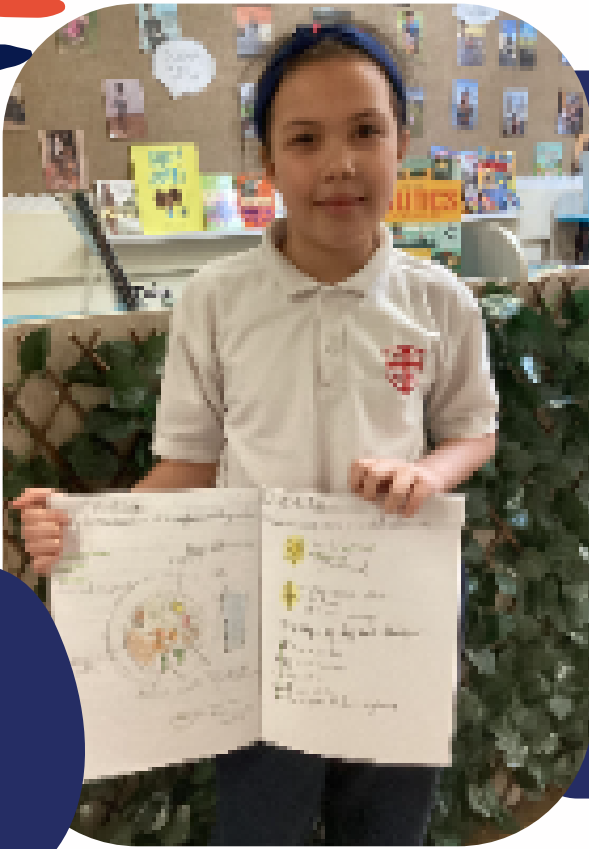

In history, we have discussed Emperor Constantine and the changes he made in history. In geography, we have worked on types of tourism and how it helps a seaside town. In RE, we have started our new topic on Lent and the importance of self-discipline. In PE, we focussed on defending and how we can intercept.

#OLGHY5

What we've been learning...

What a brilliant week we have had in year 5! We have worked very hard in our English and maths assessments this week. In our English lessons, we finished writing our adventure stories about the book Cosmic. We also started a new unit based on a Mars transmission. During our maths lessons, we explored representing thousandths as decimals.

In RE, we looked at the story of Judas betraying Jesus and we thought about the motives behind this. During history, we learnt about another viking saga; Erik the Red. We used our map reading skills to track the different countries that Erik travelled to. Next week we will be starting to make our pop-up books for our DT project.

#OLGHY6

What we've been learning...

This week has been test week, which has been really useful to see all the progress made and the areas we need to improve. This has been highly beneficial for the children. In maths, we have been solving problems involving area and perimeter meanwhile in English we have been continuing to enjoy Kensuke's Kingdom and building up our sentence structures.

In history, we have enjoyed learning about Norse Culture and the 'sagas.' In art, we have planned out our next stage which is to make a memory box. We have enjoyed PE, computing and science - learning about evolution and inheritance. A huge thank you to all the children attending booster sessions this week : they have been a credit to the school.
