“Like Our Lady,
we live wisely, think
deeply and love
generously,
in Christ”

This Week's Gospel

John 6: 52-59

**'I tell you most solemnly,
if you do not eat the flesh of the Son of Man and drink his
blood,**

you will not have life in you.

**Anyone who does eat my flesh and drink my blood
has eternal life,**

and I shall raise him up on the last day.

**For my flesh is real food
and my blood is real drink.**

**He who eats my flesh and drinks my blood
lives in me**

and I live in him.

**As I, who am sent by the living Father,
myself draw life from the Father,
so whoever eats me will draw life from me.**

**This is the bread come down from heaven;
not like the bread our ancestors ate:**

they are dead,

but anyone who eats this bread will live for ever.'

@OLGHEYFS

What we've been learning...

Reception skipped into school with huge smiles on their faces and looking smart in their summer school uniform. What have you been feeding them? They have grown so much. They were excited to find out that one of our caterpillars, which had spun a cocoon in the holidays, had turned into a beautiful butterfly.

We have started our new topic of 'Superheros' and are learning the story of 'Superworm.' We are so proud of how much progress the children have made in phonics and the children were happy to go off to their new groups this week. They have been learning to count on in maths and have enjoyed learning how to play snakes and ladders.

#OLGHY1

What we've been learning...

What a fantastic first week back in Y1! In English, we have started a new non-fiction topic about bees. We have learned lots of new facts about bees and why they are so important to us. In maths, we have started a new topic on introducing length and height. We enjoyed comparing our own heights within our class and ordering ourselves from shortest to tallest.

In history, we have started learning about the first flight. We have learned how Orville and Wilbur Wright were inventors who made the world's first successful airplane flight in 1903. In science, we are learning about caring for the planet and how we can help protect planet Earth. We also discussed some things that may be harmful to the Earth.

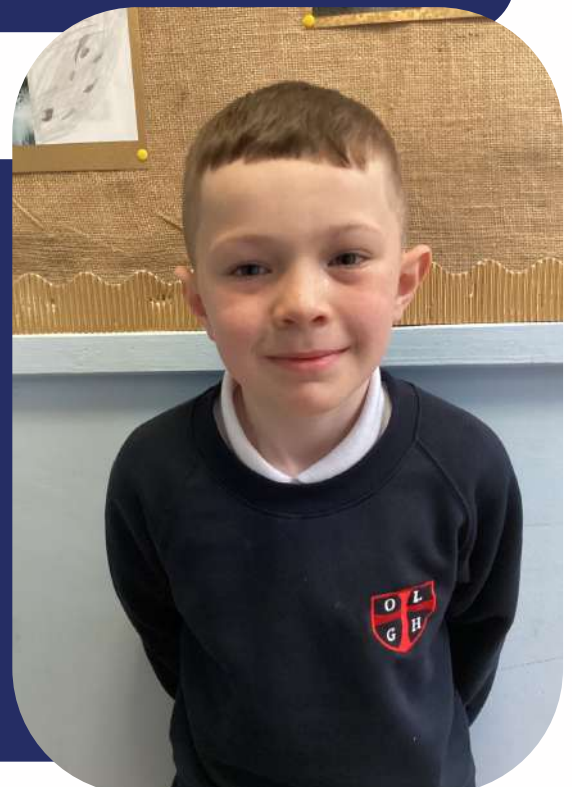

#OLGHy2

What we've been learning...

Year 2 has had a fantastic start to their final term! We have been continuing our work on our travel journals and we are now ready to write independently. In maths, we have been looking at measuring length and height in centimeters and meters. We even got to use meter rulers to measure objects around our classroom!

We have begun our new RE top about the Ascension and considered how the apostles felt watching Jesus rise into heaven. We have also begun our new history topic all about the Stone Age and learnt about the land-bridge called Doggerland that once existed!

#OLGHy3

What we've been learning...

In Prayer and Liturgy we have been reflecting on how Jesus has risen, and how we can be witnesses. In English, we are reading Theseus and the Minotaur. We have loved describing the Minotaur in great detail. In maths, we have been exploring equivalent fractions using a bar model. It has been good to see our use of mathematical vocabulary.

In history, we have been looking at Greek Gods and created amazing information poster showing all that we have learnt. In geography, we have been learning about seasonal foods. It has been interesting to learn about how food is produced in line with demand for it in our shops.

#OLGHY4

What we've been Learning...

A great first week back to school. Well done, Year 4! In maths this week, we have focused on fractions of amounts and solving problems. We have also worked in tenths as fractions and as decimals. In English, we have continued our work on 'Float' and created our own narrative based on this story. The children have worked incredibly hard and are very proud of the independent writing.

In RE this week, we have started our new topic on Pentecost and discussed the Holy Spirit and how it is depicted in art. In geography, we are continuing our work on tourism and looked at skiing tourism. In history, we have discussed the Byzantine Empire and how it continued. In PE, we have had our first Lancashire Cricket session.

#OLGHy5

What we've been learning...

Year 5 Planet Projects

It has been wonderful to be back after the Easter break and see the children looking so smart in their summer uniforms! We have really enjoyed being able to go down to the annexe at lunchtimes and enjoy some sunny weather at last! We have been extremely impressed with the high quality of homework projects being prepared by the children over the holidays.

Their knowledge of various planets has grown and we are very proud of their creative displays! During our RE lessons we have started a new topic – Pentecost. We considered that we and the world are full of energy which can be transformed to good use for us and the natural world.

#OLGHy6

What we've been learning...

This week, we have read a large sample of literature, played numerous grammar games and worked on our arithmetic skills. In maths, we have been learning about 'substitution' in algebra and creating our own expressions. In English, we have been 'text marking' and really focusing on the key vocabulary used in writing and its impact on the reader.

In RE, we have started our new topic on The Pentecost. In PE, we have been learning about cricket from LCCC. We have also enjoyed computing and continuing to learn all about Charles Darwin and his legacy in evolution and inheritance during science. Finally, a massive thank you for all those who attended the parents' meeting. For those who couldn't make it, I have sent out the PowerPoint to your emails.
